

Founding Member Invitation

Exclusive early access for a select group of agents

We're rolling out a new platform that turns every listing into polished, ready-to-post social content — automatically. AI-curated photos, persuasive property copy, high-converting CTAs, and optional microsites, all built into the back office you already use for your shoots.

Before we go public, we're inviting **5 to 10 hand-picked agents** to shape it with us.

What beta members get	What we're asking
• Early access to the full agent platform • AI content automation for every listing • Optional one-click microsite generation • Priority shoot scheduling during beta • Founding member pricing locked for life • Direct line for feedback & feature requests	• Use the platform on real listings (60–90 days) • Honest feedback in short check-ins every couple of weeks • Permission to share your results as a case study (with your approval on anything we publish)

Why you

This list is short on purpose. You're getting this invitation because you're the kind of agent we want shaping the platform — someone who closes consistently, cares about presentation, and wouldn't mind being early to something that gives you an edge.

Timeline & next steps

Beta launch:	July / August 2026
Beta length:	60–90 days
Spots available:	5–10 agents
