

PRIVATE BETA · DALLAS-FORT WORTH

# An Invitation to the *Milestone* Beta

You're among a small, hand-picked group of DFW agents invited to a first look at the platform that turns every listing into a complete marketing engine — **professional photography, automated social content, and buyer-ready microsites**, all in one place.

## What You Get **THE UPSIDE**

- ◆ Full platform access for the entire beta — nothing held back
- ◆ AI-generated social content from every listing, shaped for Instagram & Facebook
- ◆ Branded property microsites with a built-in buyer chat
- ◆ A direct line to the founder and first say on what gets built next
- ◆ Preferred pricing when you continue after launch

## What We Ask **THE TRADE**

- ◆ Put it to work on your **real, active listings**
- ◆ **Honest feedback** — what lands, what doesn't, what's missing
- ◆ A **short check-in** or two as we go
- ◆ A little patience as we refine — it's a beta, after all

### *Why you*

Because you treat a listing like a **brand, not a box to check**. This beta is built for the agents who want more than a vendor — people who care how a property is presented from the very first impression. Your eye and your standards are exactly what will make this platform sharper.

**Jul-Aug 2026**
